Farida Saad Abdalati

.NET Backend Developer

Cairo, Egypt | saadf1594@gmail.com | linkedin.com/in/farida-saad-17b5162b1 | github.com/farida748

SUMMARY

Computer Science student (graduating 2027) and .NET backend developer trained at Route Academy and ITI. Builds layered ASP.NET Core applications with EF Core and SQL Server, applying the Repository Pattern and SOLID principles, and has integrated the Gemini API into a document Q&A app. Seeking a .NET backend internship.

TECHNICAL SKILLS

- **Languages:** C#, Java, C++, JavaScript, HTML, CSS
- **Backend & Data:** ASP.NET Core MVC, ASP.NET Core Web API, Entity Framework Core, LINQ, SQL Server
- **Design:** OOP, SOLID principles, Repository Pattern, N-tier architecture, MVC
- **Tools & AI:** Git, GitHub, Visual Studio, Postman, Gemini API

PROJECTS

Gym Management System | github.com/farida748/GymManagmentSystem
ASP.NET Core MVC, EF Core, SQL Server, LINQ

- Built a web app to manage gym members, health records and membership plans, split into three projects: presentation, business logic and data access.
- Implemented a generic async repository with no-tracking reads and cancellation support, consumed through a service layer.
- Modeled 9 entities with EF Core Fluent API, using inheritance, owned types, composite keys, unique indexes and check constraints.
- Added server-side validation with ViewModels, including duplicate email and phone checks, keeping entities out of the views.

PDF Chatbot | github.com/farida748/PdfChatbot
ASP.NET Core MVC, Gemini API, PdfPig

- Built an AI-powered app that lets users upload a PDF and ask questions about its content.
- Extracted page text with the PdfPig library and sent it to the Gemini 2.5 Flash API through a typed HttpClient service.
- Designed a grounded prompt that limits answers to the document and returns a fixed reply when the answer is not in the PDF.

TRAINING

.NET Backend Development Trainee | Route Academy | On-site | 2025–2026 (6 months)

- Backend track covering C#, SQL Server, EF Core, ASP.NET Core MVC and Web API, SOLID and design patterns; built the Gym Management System as the capstone.

Web Development Using .NET Trainee | Information Technology Institute (ITI) | Online | 2026 (1 month)

- Practical .NET web development with an introduction to generative AI; built the PDF Chatbot as an individual project.

EDUCATION

Bachelor of Computer Science | Menoufia University | Expected June 2027 | GPA: 3.16 / 4.00

LANGUAGES

Arabic: Native | English: B2 (Upper Intermediate)
